

Bullit – Jean-Marie Massaud – 2016

Bullit è un paesaggio da vivere. Il divano come spazio di comfort assoluto. Un sistema aperto a innumerevoli composizioni pensate come isole di relax. Decisamente importante la profondità della seduta. A rendere ogni configurazione ancora più eclettica e creativa, i cuscini mobili quadrati e rettangolari, imbottiti in piuma d'oca e rivestiti in pelle o tessuto, da moltiplicare a piacere.

Bullit is a landscape to be experienced, the sofa as a space of absolute comfort. A system open to countless compositions envisaged as islands of relaxation. The depth of the seat is a particularly important element. To make each configuration even more eclectic and creative, loose square and rectangular cushions, padded with goose-down and upholstered in leather or fabric, can be added at will.

TECHNICAL FEATURES

Seat, backrest and armrests structure. Made of seasoned solid beech wood and poplar, birch plywood sides and MDF infill panels.

Seat suspension. Elastic belts.

Padding. The backrest and armrests are padded with polyurethane foam and polyester wadding. The seat is padded with goose down and polyester staple with a polyurethane foam stabilizing insert.

Available cushions.

- **Backrest support cushions kit:** padded with polyester wadding with a polyurethane foam stabilising insert. Front side upholstered with micro-perforated leather.
- **HB cushions kit:** provide a lumbar and headrest support. They are padded with polyester wadding with a polyurethane foam stabilising insert. The cushions are secured to the seat thanks to a steel structure. A semi-matt black metal tubular is positioned between the backrest cushion and the backrest itself.

Bullit + backrest support cushions kit.

Upholstery. Fully upholstered in Pelle Frau® or in a combination with two materials. The first upholstery mentioned below is used for the sofa while the second one is used for the backrest support cushions.
