Tenso Sofa System

DESIGN BY LUCA NICHETTO, 2018

▣ Disegnato da Luca Nichetto, Tenso è un sistema composto di elementi imbottiti ispirato alle tensostrutture. Il fulcro del sistema è il telaio, una struttura tubolare leggera e solida su cui vengono fissati i vari elementi – sedili, schienali, cuscini e piani tavolo tra cui si viene creare una tensione che mantiene le varie parti sospese e aperte, come un abbraccio accogliente. Gli elementi imbottiti, da combinare a piacere per creare divani, divani con penisola o pouf, anche con piani tavolo incorporati, sono morbidi e confortevoli, mentre il rivestimento in tessuto o pelle è caratterizzato da dettagli sartoriali. L'elemento con poggiatesta reclinabile offre ancora più comfort a chi ama leggere o guardare la tv.

EN **Designed by Luca Nichetto, Tenso is a system comprising padded items inspired by tensile structures. The core of the system is its frame, a light and sturdy tubular structure to which the various elements are fixed – seats, backrests, cushions and tabletops, between which a tension is created that keeps the various parts suspended and open, like a welcoming embrace. The padded items, which can be combined as required to create sofas, sofas with a peninsula element or a pouf, also with built-in tabletops, are soft and comfortable, whereas the upholstery in fabric or leather features tailored details. The element with a reclining headrest offers extra comfort to those who love reading or watching TV.**

DE Tenso ist ein von Luca Nichetto entworfenes System von Polster-elementen, die sich von Flächentragwerken inspirieren ließen. Das Kernstück des Systems ist der Rahmen, eine leichte und starke Rohrstruktur, an der die verschiedenen Elemente - Sitzflächen, Rückenlehnen, Kissen und Tischplatten - befestigt sind. Unter diesen Elementen entsteht eine Spannung, die die einzelnen Teile wie eine einladende Umarmung schwebend und offen hält. Die weichen und komfortablen Polster-elemente lassen sich ganz nach Belieben kombinieren, um Sofas, Sofas mit Chaiselongue oder Poufs, auch mit eingefügten Tischplatten, zusammenzustellen, die Bezüge aus Stoff oder Leder zeichnen sich durch Details der besten Schneiderkunst aus. Das Element mit neigbarer Kopfstütze bietet noch mehr Komfort beim Lesen oder Fernsehen.

ES Diseñado por Luca Nichetto, Tenso es un sistema de asientos que se inspira en las tensoestructuras. El eje central del sistema es el bastidor, una estructura tubular ligera y sólida en la que se fijan los distintos elementos: asientos, respaldos, cojines y sobres de mesa entre los que se crea una tensión que mantiene las distintas partes suspendidas y abiertas, como en un cálido abrazo. Suaves y confortables, los asientos pueden combinarse a voluntad para crear sofás, sofás con península o pufs, incluso con sobres de mesa incorporados, mientras que el revestimiento de tejido o de piel se caracteriza por sus detalles sartoriales. El elemento con

reposacabezas reclinable ofrece un confort adicional para los amantes de la lectura y la televisión.

FR Dessiné par Luca Nichetto, Tenso est un système d'éléments garnis s'inspirant des structures à câbles. Le cœur du système, c'est une structure tubulaire, légère et solide, à laquelle sont fixés les assises, les dossiers, les coussins et les plateaux de table entre lesquels se crée une tension qui maintient les différentes parties suspendues et ouvertes. Les éléments garnis, moelleux et confortables, se composent selon les besoins pour créer des canapés simples, avec chaise longue, avec pouf et avec plateaux de table incorporés alors que le revêtement en tissu ou en cuir se distingue par des détails artisanaux. L'élément avec repose-tête inclinable est parfait pour lire ou regarder confortablement la TV.
