

Series composed of sofas and modular seating elements available in two heights and four seat depths. The element dimensions and the possibility to vary their height, thanks to different typologies of feet, allow for classic or informal compositions. Move series also includes poufs available in the same finishings.

Structure: varnished steel provided with elastic belts and covered with synthetic fabric.

Base: plastic spacers or steel bases varnished in avorio or grafite colour.

Padding: stress resistant differentiated expanded polyurethane; fixed foam covering in polyester fibre and polyamide.

Upholstery: removable and available in a selection of fabrics in the collection.

Coupling system: steel.

Notes:

Move elements can be completed with independent armrests, which can be positioned on the seats in the desired quantity.

For a complete comfort, we advise to use the specific back cushions, made of polyester fibre and a layer of expanded polyurethane.

Awards: the Move sofa has been awarded the GERMAN DESIGN AWARD 2016 in the Excellent Product Design category, the RED DOT AWARD 2015 in the Product Design category and the GOOD DESIGN AWARD 2015 in the Furniture category.
