

Side table with independent bases available in two versions and glass top.

Base: extruded faience elements positioned according to a pre-established scheme.

Top: transparent extra-light tempered glass available both square and round.

The elements composing the base of this side table are made and decorated by hand with exclusive colours by Nicolò Morales.

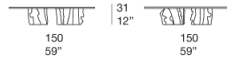

Notes:

The material, the particular handwork and the production techniques used for the base of Astri side table lead to colour and design differences among its components. Irregularity is the featuring characteristics of this production process: it is impossible to guarantee identical set of elements in different tables even within the same order.

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
