

Rilievo is a felt rug created by joining felt elements in different dimensions and in the same colour, with appliquéd design.

On each element composing the surface of the rug, wool cords in different mélange colours are sewn with Punto Zigzag and with different inclinations, according to a pre-determined pattern.

The felt elements are then joined together with Punto Zigzag.

The number of the appliquéd designs varies according to the rug dimensions.

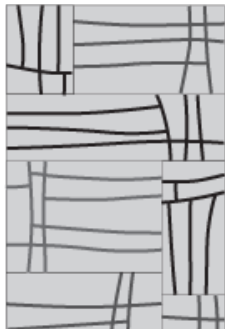

The border features Punto Pettine.

This rug can be produced with both a single layer and a double layer of felt.

In the double layer rug, the under layer is always without stitching and in one single colour.

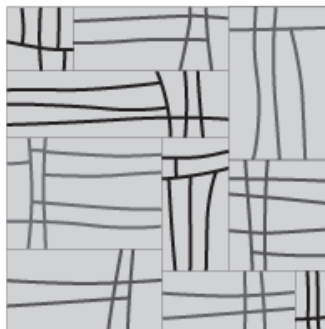

Only in rug with a width higher than 200 cm the underside shows inner stitching.
