

PIANCA

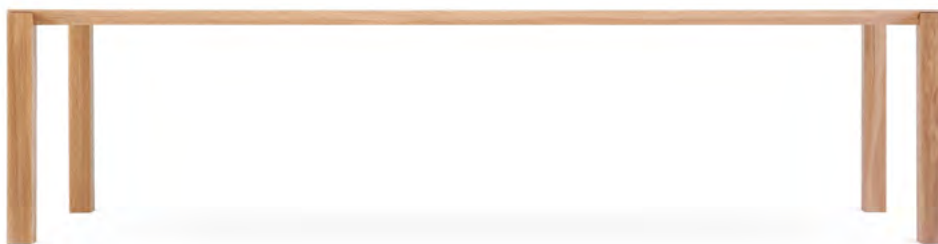

WOODY Table designer Fattorini Rizzini & Partners

The surfaces and features of the table designed by the studio Fattorini+Rizzini+Partners jibe perfectly with the Pianca philosophy, giving rise to a product of clean, essential geometric lines. Woody is rigorous and minimal, to fit perfectly into both classic and contemporary domestic spaces.

The concrete substance of the wood conserves its character in every part, thanks to a finish that brings out its natural beauty.

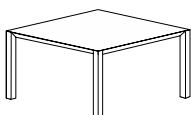

The oak top seems to float on the structure, reaching a length of three meters with a single spectacularly slim plank.

PIANCA
