

PIANCA

EMI Chair design R&S PIANCA

Linear, modern, slender design, maximum comfort, elegant constructive details: EMI combines beauty with functional advantages.

Its soft, essential lines make it aesthetically light and versatile, with its own precise personality, but adaptable to different contexts, also thanks to the possibility of personalization with the vast range of fabrics and leathers in the PIANCA collection.

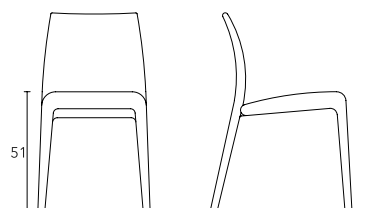

The cover stands out for its double needle stitching and the handy zippers for easy removal and replacement.

Comfort is guaranteed by the expertise that has gone into the details: an ergonomic back, an ideal angle between seat and back, the light padding that supports the body and adds softness to the structure.

PIANCA

DIMENSIONS

W 47 | H 85 | D 60 cm
