

STRUCTURE

Structure made of particle board panels with a 45° joint. Water based matt and high gloss lacquered ecoveneer on the outside and inside or wood veneer on the outside, wood like ecoveneer on the inside.

Drawer fronts made of lacquered mdf panels or made of wood veneered particle board panels with solid frame on the top.

The invisible full extension glide system has a galvanized metal structure, tecnopolymer castors and safety lock. It allows for vertical and horizontal adjustment as well as soft closing and full extension.

Groove handle can be placed on the left or on the right of the front.
