

## DOMINIO

Collezione di divani interamente sfoderabili, tranne nelle versioni in pelle. Lo schienale Capitoné non è sfoderabile né in tessuto, né in pelle.

**Struttura:** in legno, imbottita in poliuretano espanso indeformabile, rivestito in tessuto protettivo accoppiato.

**Cuscini seduta e schienale:** in piuma d'oca Assopiuma lavata e sterilizzata secondo le norme RAL, con inserto in poliuretano indeformabile.

**Piedini:** in Pvc nero, altezza standard cm. 2.5. Su richiesta possibilità di avere i piedini alti cm 4 e cm 6. Il cuscino di seduta in piuma ha delle caratteristiche di morbidezza che con l'uso vengono accentuate. La formazione di eventuali avvallamenti e di pieghe nel tessuto è assolutamente normale e non può essere motivo di reclamo. Si consiglia di sprimacciare il cuscino per ravvivarlo. Il modello è completato da una serie di librerie e piani in legno disponibili esclusivamente nelle seguenti finiture:

Laccato opaco bianco o nero.

Impiallacciato noce canaletto.

Gli elementi imbottiti si differenziano per profondità di seduta, oltre che per altezze e tipologie di schienali e di braccioli. Qui di seguito trovate un piccolo schema esplicativo. Ogni elemento è dotato di cuscinetti per conferire un maggior confort. Nel caso della versione "Large", creata con una seduta particolarmente profonda, si consiglia l'aggiunta di ulteriori cuscinetti se si desidera un maggior sostegno nello schienale.

*Collection of sofas with fully removable covers, except for the version in leather. The back of the version Capitoné is never removable, either in fabric or in leather.*

**Frame:** in wood, padded in indeformable polyurethane foam, covered by doubled protective fabric.

**Seat and back cushions:** in goose feathers Assopiuma washed and sterilized according to RAL standards, with core in indeformable polyurethane foam.

**Feet:** in black PVC, standard height cm.2.5. On request there is the possibility to have feet cm 4 or cm 6 high. The seat cushion has characteristics of softness that with the utilization will be accentuated. The building of hollows in the upholstery and of waviness in the cover is absolutely normal and cannot be accepted as a complaint. We advise to shake up the upholstery to revitalize it. The model is completed by a range of bookcases and tops in wood available exclusively in the following finishings:

*Matt lacquered white or black.*

*Veneered walnut canaletto wood.*

*The padded elements differ from each other in the seat depth as also in the heights and kinds of **backrests** and **armrests**. Hereafter you find some explanatory sketches. Each element is provided with back cushions in order to give more comfort to the model. In the version "Large", created with a particularly deep seat, it's recommended to add some more cushions if it's wished more support in the back.*

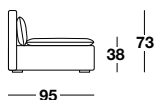

### FEET FINISHING

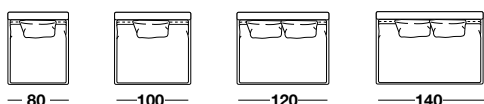

*Black PVC*
