

TAYLOR

La serie Taylor è composta da elementi con schienale fisso (non rialzabile) e "UP", quest'ultima con schienale rialzabile, disponibili in due profondità diverse. Tutti gli elementi possono essere accostati tra di loro per un'eventuale composizione. Completa la gamma una serie di mensole che vengono fissate sul lato o sul retro degli elementi. Gli articoli sono interamente sfoderabili tranne nella versione in pelle. La versione "UP" ha la struttura parzialmente non sfoderabile. Le fodere sono realizzate con cuciture "Pizzicotto".

Base della struttura: in legno con imbottitura in poliuretano rivestito in tessuto protettivo accoppiato.

Braccioli: in legno con imbottitura in poliuretano rivestito in piuma d'oca (Assopiuma) lavata e sterilizzata secondo le norme R.A.L.

Schienali: in legno e metallo con imbottitura in poliuretano rivestito in piuma d'oca (Assopiuma) lavata e sterilizzata secondo le norme R.A.L.

Cuscino seduta: in piuma d'oca (Assopiuma) lavata e sterilizzata secondo le norme R.A.L. con inserto in poliuretano.

Cuscinetti: in piuma d'oca (Assopiuma) lavata e sterilizzata secondo le norme R.A.L.

Basamenti: in metallo verniciato effetto cromo nero.

La collezione Taylor è arricchita da diversi accessori:
- un "BOX" reggilibri, disponibile in metallo ricoperto in cuoio o pelle.

- un mobile contenitore in legno "CABINET", realizzato da struttura e due vassoi removibili, disponibile impiallacciato noce canaletto oppure frassino tinto wengé.

- una lampada a LED a due intensità, orientabile, in alluminio e acciaio, fissata esclusivamente all'articolo "cabinet", e non più removibile.

Visto l'utilizzo di piuma questo modello ha delle caratteristiche di morbidezza che con l'uso vengono accentuate. La formazione di eventuali avvallamenti nell'imbottitura e di pieghe nel tessuto è assolutamente normale e non può essere motivo di reclamo.

Si consiglia di sprimacciare l'imbottitura per ravvivarla. Il modello è dotato di piedini centrali di sicurezza.

Taylor collection is composed of elements with fixed backrest (not raisable) and "UP" (this last one with raisable backrest) and are available in two different depths. All the elements can be combined together to create a composition. A range of shelves, fixed on the side or on the backside of the elements, completes this collection. The items have completely removable covers, except the ones in the leather version. The cover of the structure of "UP" version is partially not removable. Covers are sewed with finishing "Pizzicotto".

Base of the structure: in wood padded with nondeformable polyurethane foam covered with double protective fabric.

Armrests: in wood padded with non-deformable polyurethane foam covered with goose feathers washed and sterilized according to R.A.L. standards.

Backrests: in wood and metal padded with nondeformable polyurethane foam covered with goose feathers washed and sterilized according to R.A.L. standards.

Seat cushions: in goose feathers (Assopiuma) washed and sterilized according to R.A.L. standards with insert in polyurethane foam.

Cushions: in goose feathers (Assopiuma) washed and sterilized according to R.A.L. standards with insert in poliurethan foam.

Bases: in metal painted looking like black chrome.

*The collection Taylor is enriched by different accessories:
- one "BOX" bookend, available in metal covered in hide (cuoio), or in leather.*

- one "CABINET" in wood, composed of a frame and two removable trays, available veneered walnut canaletto or ashwood wengé coloured.

- one LED lamp, with two light intensities, adjustable, in aluminium and steel, fixed exclusively to the element "cabinet" and no more removable.

Thanks to goose feathers, this model has characteristics of softness that with the utilization will be accentuated.

The building of hollows in the upholstery and of waviness in the cover is absolutely normal and cannot be accepted as complaint. We advise to shake up the upholstery to revitalize it. The model is provided with central security feet.

TAYLOR

Esempio di composizione ad angolo.

Le composizioni ad angolo nella versione con schienale fisso possono essere così realizzate:

- 1 utilizzando l'angolo.
- 2 utilizzando gli elementi normali accostati tra loro.

Example of corner composition.

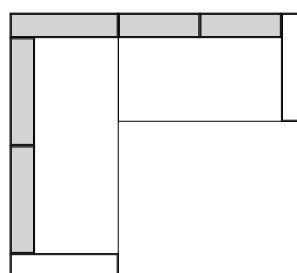

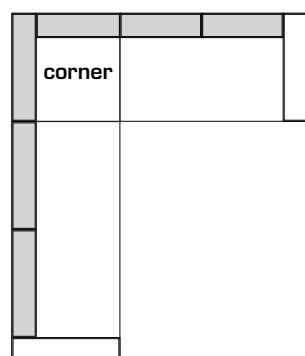

Corner compositions in the version without raisable backrest can be built as follows:

- 1. by using the corner.*
- 2. by combining the items.*

Esempio di composizione ad angolo.

Le composizioni ad angolo nella versione "UP" possono essere così realizzate:

- 1 utilizzando l'angolo.
- 2 utilizzando gli elementi "...ANGOLO" (vedere disegni seguenti). Su questi articoli infatti anche il bracciolo è realizzato con movimento "UP", per dare continuità agli schienali rialzabili.

Example of corner composition:

Corner compositions in the "UP" version can be built as follows:

- 1. by using the corner.*
- 2. by using "...ANGOLO" elements (see following drawings). On these items also the armrest is produced with "UP" mechanism, to complete the raisable backrest.*
