Designer

Konstantin Grcic

Konstantin Grcic was born in 1965 and studied Design at the Royal College of Art in London. Since setting up his own practice, Konstantin Grcic Industrial Design (KGID), in Munich in 1991, he has developed furniture, products and lighting for some of the leading companies in the design field. Konstantin Grcic defines function in human terms, combining strict forms with considerable mental acuity and humour. Each of his products expresses a careful research into the history of design and architecture, and his passion for technology and materials. Known for his pared-down pieces, Grcic is often called a minimalist, but the designer himself prefers to speak of simplicity.
