Oliver Slide

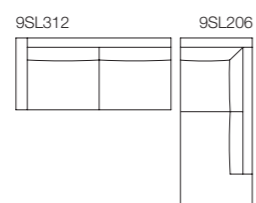

Design
Studio crGM

La famiglia di prodotti Oliver e Slide si caratterizza per la sua flessibilità, versatilità e molteplicità di combinazioni possibili, grazie alla vasta scelta di misure, imbottiture, rivestimenti, piedini e basamenti, risolvendo così le diverse esigenze di gusto, spazio e confort.

Scheda tecnica standard

Fusto in legno massello e legno multistrato con cinghie elastiche intrecciate. Imbottitura in espanso rivestito in vellutino bianco. Cuscini di schienale in Piumafib, una speciale miscela ipoallergenica di vera piuma e fibra poliestere siliconata*. Cuscini di seduta in poliuretano espanso con densità di 30 Kg/m³ (su richiesta è possibile avere densità 40 Kg/m³ medio o 40 Kg/m³ morbido), rivestito in fibre termo legate e in tessuto di puro cotone. Completamente sfoderabile in tessuto, non sfoderabile in pelle e finta pelle. Kit letto disponibile.

*Manutenzione dei cuscini contenenti piuma: I cuscini contenenti piuma tendono a deformarsi con l'utilizzo. Per mantenerne la forma è necessario, anche dopo un breve utilizzo, battere e sprimacciare ripetutamente i cuscini. Non utilizzare mai battipanni o aspirapolvere. A coloro che non desiderassero seguire queste indicazioni o che volessero un divano dall'aspetto meno vissuto, raccomandiamo di preferire dei cuscini in gamma.

The Oliver and Slide collection is characterized by its flexibility, versatility and variety of possible combinations, thanks to the wide range of available measures, paddings, covers, feet and bases, thus satisfying every demand of taste, space and comfort.

Standard technical sheet:

Frame made of solid wood and multi-ply wood with interwoven elastic straps, upholstered with polyurethane foam, covered with dacron. The back cushions are filled with Piumafib, a special hypoallergenic mixture of feathers and siliconised polyfibre*. The seat cushions are made of polyurethane foam with density of 30 Kg/m³ (on demand it is possible to have 40 Kg/m³ medium or 40 Kg/m³ soft), covered with dacron and pure cotton fabric. Fully removable fabric covers, artificial leather and artificial leather covers. Sofa-bed is available.

*Maintenance of feather cushions: Cushions filled with feathers tend to change their shape with use. In order to keep their shape it is necessary, even after a short use, to plump up the cushions repeatedly. Never use carpet beater or vacuum cleaner. We recommend to choose foam cushions to those who do not wish to follow these instructions or to have a "used look" sofa.

Die Kollektion Oliver und Slide zeichnet sich aus durch Ihre Flexibilität, Vielseitigkeit und Vielfalt von möglichen Kombinationen. Dank der grossen Auswahl von Massen, Polsterungen, Bezügen, Fuessen und Gestellen koennen alle Erfordernisse von Geschmack, Raum und Komfort erfuehlt werden.

Standard technische Daten:

Das Gestell besteht aus Massiv- und Schichtholz, mit geflochtenen Gummigurten, gepolstert mit Polyurethanschaumstoff, mit Dacron bezogen. Ruedckenkissen aus Piumafib, einer hypoallergenischen speziellen Mischung aus echter Daune und silikonisierter Polyesterfaser*. Die Sitzkissen bestehen aus Polyurethan-Schaumstoff 30 Kg/m³ (auf Anfrage kann man 40 Kg/m³ weich haben), bezogen mit Dacron und reinem Baumwollstoff. Stoffbezuenge alle abziehbar, Leder und Kunstleder festbezogen. Als Bettsofa verfuegbar.

*Wartungsanleitungen fuer Daunenkissen: Die Kissen, die Daunen enthalten, neigen dazu, sich durch Gebrauch zu verformen. Um die urspruengliche Form zu halten, ist es notwendig, auch nach kurzem Gebrauch, die Kissen wiederholt aufzuschuettern. Keinen Auskloepfer oder Staubsauger verwenden. Unseren Kunden, die diese Anweisungen nicht befolgen moechten, oder die kein Sofa mit solchem "gebrauchten" Aussehen haben moechten, empfehlen wir Polyurethan-Kissen.

La famille de produits Oliver et Slide se caractérise par sa flexibilité, sa multiplicité et ses nombreuses combinaisons possibles, grâce à un ample choix de dimensions, rembourrages, revêtements, pieds et piètements, répondant ainsi à toutes les exigences de goût, espace et confort.

Fiche technique de la version standard

Carcasse en bois massif et multiplis muni de bandes élastiques entrecroisées et finie de mousse polyuréthane couverte de dacron. Coussins de dossier en Piumafib, un mélange hypoallergénique spécial de véritable duvet et fibre polyester siliconisée*. Coussins d'assise en mousse polyuréthane d'une densité de 30 kg/m³ (sur demande, il est possible d'avoir une densité de 40 kg/m³ medium ou 40 kg/m³ souple), couverte de dacron. Revêtement complètement déhoussable en tissu, fixe en cuir et cuir look. Disponible en canapé-lit.

* Entretien de coussins en duvet: Coussins en duvet ont tendance à perdre leur forme dû à l'usage. Pour en conserver la forme il est nécessaire, aussi après un usage court, de régulièrement battre les coussins. Ne jamais utiliser la tapette ou l'aspirateur. À ceux qui ne désirent pas suivre ces indications ou qui souhaitent un canapé qui ait l'air moins "usé", nous conseillons vivement de choisir des coussins en mousse polyuréthane.

De productenfamilie Oliver en Slide wordt gekenmerkt door haar flexibiliteit, veelzijdigheid en talrijke combinatie-mogelijkheden dankzij een ruime keuze aan afmetingen, vullingen, bekledingen, poten en onderstellen, op die manier tegemoetkomend aan alle mogelijke eisen inzake smaak, ruimte en comfort.

Technische fiche van de standaardversie

Romp in massief hout en multiplex, voorzien van door elkaar geweven elastische singels en bekleed met koudschuim afgewerkt met dacron. Rugkussens in Piumafib, een speciale hypoallergene mengeling van echt dons en gesiliconiseerde polyestervezel*. Zitkussens in koudschuim met een densiteit van 30 kg/m³ (op aanvraag is een densiteit van 40 kg/m³ medium of 40 kg/m³ zacht mogelijk), afgedekt met dacron. Volledig afneembare bekleding in stof, vaste bekleding in leder en lederlook. Ook verkrijgbaar als bedbank.

* Onderhoud van kussens met donsruiling: Kussens met donsruiling hebben de neiging door het gebruik hun vorm te verliezen. Om hun vorm te behouden is het noodzakelijk, ook na kort gebruik, de kussens regelmatig op te kloppen. Nooit een mattenklopper of stofzuiger gebruiken. Wie deze voorschriften niet wenst te volgen of een zitmeubel wenst dat er minder "sordig" uitziet, raden wij met aandrang aan voor kussens met koudschuimvulling te kiezen.

Основными преимуществами коллекции диванов Oliver и Slide являются широта и многообразие возможных комбинаций, что обеспечивается богатым выбором элементного ряда, типа наполнения, предлагаемых вариантов отделки, а также видов ножек и оснований и отвечает самым разнообразным требованиям по вкусу, комфорту и параметрам помещения. Для производства каркаса используется массив дерева и многослойная фанера в сочетании с перекрещивающимися эластичными ремнями. Наполнение из полиуретана, обернутого в белый бархат. Наполнение подушек спинки выполнено из материала Piumafib – специальной, не вызывающей аллергии смеси из натурального пуха и полиэфирных силиконовых волокон*. Наполнение подушек сиденья: пенополиуретан плотностью 30 кг/м³ (по запросу - 40 кг/м³ средней мягкости или мягкий), покрытый термосвязанным волокном и обернутый в ткань из натурального хлопка. Полностью съемные чехлы из ткани, несъемные чехлы из кожи (искусственной или натуральной) Исполнение дивана в версии со спальным местом: возможно

*Эксплуатация подушек с пуховым наполнением: В процессе эксплуатации подушки с пуховым наполнением могут деформироваться, во избежание чего их необходимо слегка взбивать вручную даже после непродолжительного нахождения на диване. Использование в этих целях пылесоса или выбивалки для одежды категорически запрещено. Если клиент не планирует следовать данным инструкциям и хочет, чтобы подушки сиденья и спинки проминались по минимуму, посоветуйте выбрать наполнение только из полиуретана, полностью исключив натуральный пух.
