NAVIGLIO

Arch. Maurizio Di Mauro

DESCRIPTION

Dynamic and flexible: the particular configuration of Naviglio favors and guarantees a very fluid and personal use. The table is available with both square and round top: its atypical rounded shape is designed to give more conviviality to the guests - so that they do not sit along a straight line but follow a curve favoring eye-contact. Its solid wood legs, made of canaletto walnut or stained ash, form a simple and sculptural base - strongly geometric in inspiration.
