CINQUETERRE

Arch. Cesare Arosio

DESCRIPTION

Cinqueterre is a collection of storage and bar units with a unique personality, unconventional and elegant. The unexpected interplay of joints and infinite modularity make this dual-face model absolutely unique. Colors, woods, leather or brass finishes: each "dress" feel perfect. Cinqueterre is not only a sideboard but also cupboard and totem and is it possible to add several optionals: wine cellar, extractable tray and inside element with one or two drawers.
