DESCRIPTION

Sanremo is a collection of tables in which the practicality of use meets the aptitude to fit with measured elegance in any environment. Their wooden structure is easy to be moved and brought closer to the sofa or one to another to create compositions of great charm. Great is the variety of material combinations between the structure that is proposed in solid Canaletto walnut or ash and the top in wood, mirror or metal. Custom also the side band of the top, like the legs which are entirely to be seen outside the top, in double finish - wood and metal.
