### DESCRIPTION

---

Sophisticated and refined, the absolute protagonist of your sleeping area: Piazzaduomo, just like its inspiration from the world of architecture, is precious even starting from its details. Precisely, it is the expression of a minimalism where nothing is left to chance: its structure is made of solid wood, its taut lines express research and essentiality. Details such as the solid wood foot embellish the figure. Piazzaduomo is also available with the bergère structure, intriguing and sensual.
