

NINA (INDOOR + OUTDOOR)

design David Lopez Quincoces

Stool available in three heights for indoor and outdoor.

Indoor version: supporting frame in steel rod section Ø12mm coated with epoxy powder RAL-K7 9017 matt black. Seat panel in multilayer poplar wood and padding in polyurethane foam and acrylic fibre layers. Fabric or leather upholstery with grosgrain piping when in fabric, and when in leather piping in the same finish as the seat.

Outdoor version: supporting frame in Stainless Steel AISI 316 rod section Ø12mm coated epoxy polyester powder finish RAL-K7 9017 matt black. Seat panel for outdoor plywood and padding in open cell structure polyurethane foam DRYFEEL S covered with fibre for outdoor and with a heat-sealed waterproof fabric. Upholstery with outdoor fabrics only.

For both versions fully removable upholstery by Velcro fastenings, unscrewing the chassis from the supporting frame, and ground support secured by plastic feet.
