

LIGHT WITH A TABLE

design Keiji Takeuchi

Floor lamp for indoor use with diffused light and integrated small table equipped with wireless charging, compatible with devices with Qi technology integrated, and touch light switch. Structure in different sections tubular steel with base in 10mm laser-cut steel sheet, calendared ring and bottom in laser-cut steel sheet 3mm thick, finished with matt black epoxy powder coating. The base houses a transformer for wireless charging and a power supply for switching on/off the lamp. Table top Ø39cm available lacquered matt black or veneered, on the upper part only, in charcoal-dyed oak or Stone Oak®, with acrylic painting finish; edge and bottom always lacquered matt black. Blown glass opal diffuser Ø15cm fixed to the lamp by means of a threaded ring. Floor support secured by black PVC feet. Power cord length 260 cm, equipped with European plug 3 poles 16A angled Schuko.

The lamp is supplied with 1 LED light source G9 4W 400lm 3000K 220/240V.

Voltage 220 / 230V.

Lamps are cabled according to European CE laws.

For China:

Power cord with guaranteed minimum length of 150 cm, equipped with China plug 2 poles 6-10A axial.

The lamp is supplied with 1 LED light source G9 4W 400lm 3000K 220/240V.

Voltage 220V.

For UK:

Power cord with guaranteed minimum length of 150 cm, equipped with UK plug 3 poles 3-5-13A angled.

The lamp is supplied with 1 LED light source G9 4W 400lm 3000K 220/240V.

Voltage 220/240V.

For USA:

Power cord with guaranteed minimum length of 150 cm, equipped with North American plug 2 poles 15A axial.

We recommend the use of 1 LED light source G9 4W 400lm 3000K 110/120V.

Voltage 110/120V.

Notes

Stone Oak®: this wood owes its particular coloring to an entirely natural process. Because of this, some slabs may look more brown than others. Our commitment is to provide you a high quality product; any differences in color should not be considered as defects.

On request, an additional protective (acrylic solvent) painting is available for the Stone Oak® finishing only. It should be noted that this additional coating slightly changes the natural color and texture of the surface. Although this supplementary painting increases the surface resistance, it is still a natural material; therefore small superficial stains, due to oil or other substances, have to be promptly removed, before being absorbed in depth by the wood. Thus, we recommend regular care and maintenance.
