

## GLISS MASTER — VINCENT VAN DUYSSEN 2015

1—  
57

The Gliss Master wardrobe collection is an ecosystem. Actually, it is the ecosystem designed by architect Vincent Van Duysen, which redefines the concept of custom wardrobe. Patented technology, elegant finishes, innovation and exceptional customisation options define excellent project function and flexibility features, without renouncing the aesthetic values of design.

## MODULARITY

### Modularity - Structure

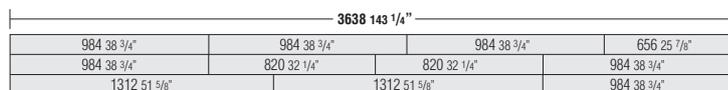

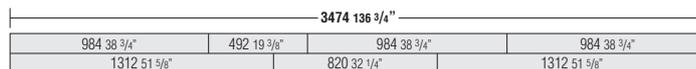

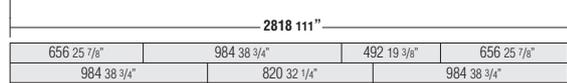

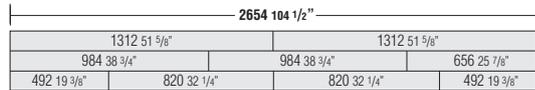

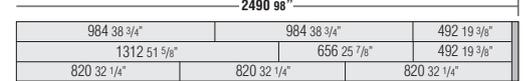

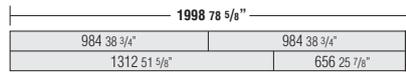

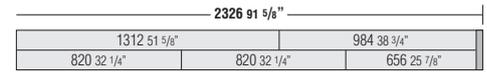

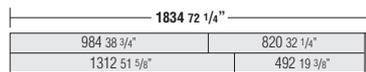

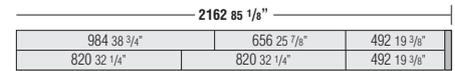

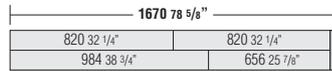

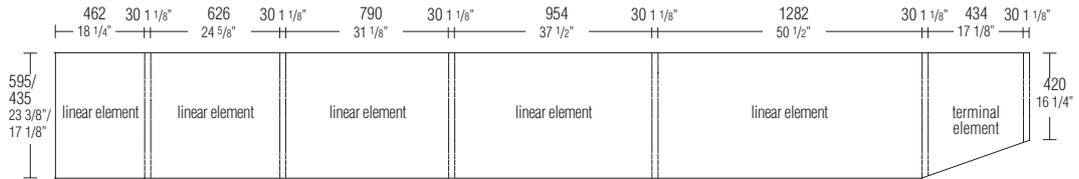

The widths 492 - 656 - 820 - 984 - 1312 - 464 (term. element) mm (19 3/8" - 25 7/8" - 32 1/4" - 38 3/4" - 51 5/8" - 18 1/4") include the left side panel. The total width of the composition will include the final panel of th. 30 mm (1 1/8").  
 Heights: tot. H 2343 (92 1/4"), door 2313 (91"), int.2253 (87 3/4"), sliding or flush sl. door inter. 2163 (85 1/8")  
 tot. H 2439 (96"), door 2409 (94 7/8"), int. 2349 (92 1/2"), sliding or flush sl. door inter. 2259 (88 7/8")  
 tot. H 2631 (103 5/8"), door 2601 (102 3/8"), int. 2541 (100"), sliding or flush sl. door inter. 2451 (96 1/2")  
 tot. H 2919 (114 7/8"), door 2889 (113 3/8"), interior 2829 (111 3/8"), only hinged

### Assembly instructions

For the assembling of a sliding and a flush sliding door wardrobe a minimum space of 6 cm (2 3/8") is required considering the minimum height of the compartment.  
 Assembly of the corner element (for wardrobe with doors) requires a minimum extra height of 6 cm (2 3/8").  
 Assembly of a wardrobe in an alcove requires a minimum extra side space of 4 cm (1 5/8").  
 For hinged door wardrobes with lighting systems and/or SISTEMA 7 doors this product requires a minimum height of 5 cm (2").

## DOORS

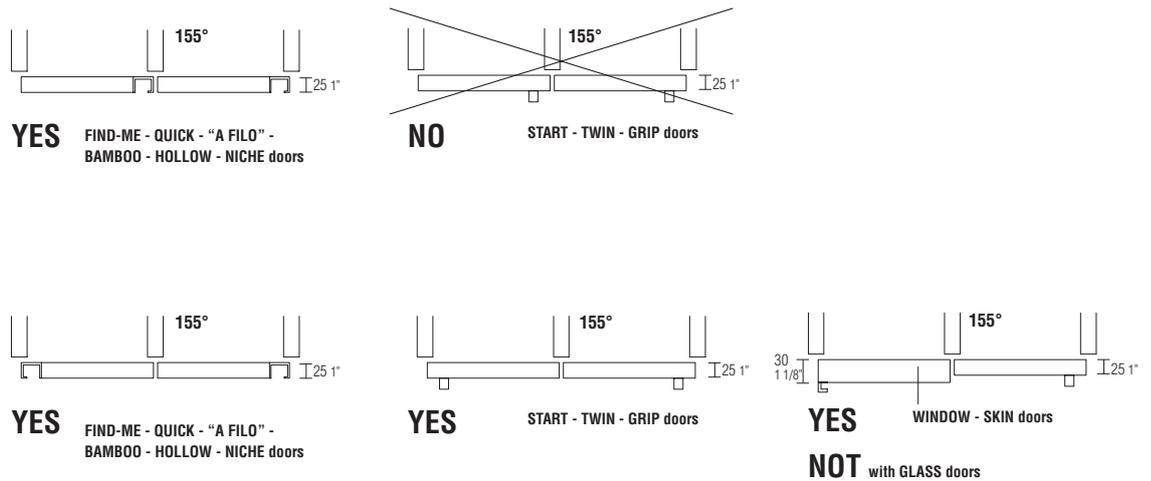

155° opening (only for compartments with wooden sides)

On FIND-ME - QUICK - START - TWIN - "A FILO" - BAMBOO - HOLLOW - GRIP - NICHE doors it is also possible to use 155° opening hinges, with an extra charge per individual door. In this case, it is necessary to take special care in inserting internal drawer units, trinket trays and devices.

It is also necessary to comply with the diagrams provided here.

# Molteni & C

6—  
57

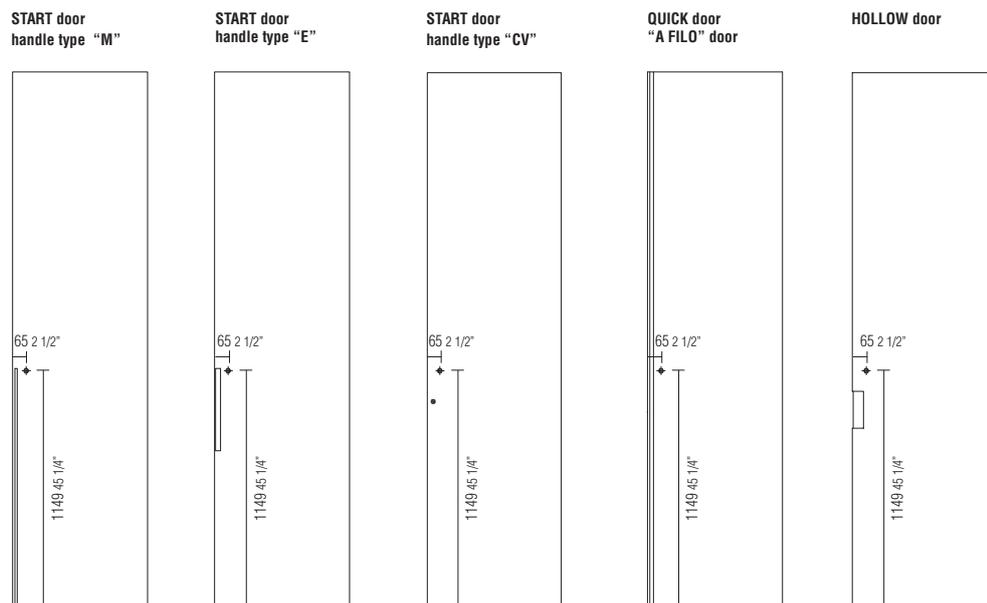

### Hinged doors with key lock

For the hinged doors specified, a key lock can be fitted to order. There is an additional cost for one or two doors.

It can even be fitted on a terminal element or a corner element (in compliance with the handle installation rules).

For doors with a lock, the internal drawer units must be suspended.

Installation of only the lock can be requested, without a handle, always considering the price of the START doors and the additional cost of the lock.

### DATASHEET

REGISTERED  
DESIGN

IX.2021

## SISTEMA 7

A new folding opening system with a patented mechanism which makes it possible, in the 180° version, to open the unit entirely.  
The mechanism, light and silent, does not require tracks and therefore allows use of the full height.

The hinged doors enable 180° opening and wardrobe width made to order; the special hinge pins are anchored to the base and the cover.

**Anyhow, SISTEMA 7 hinge doors can be used.**

The 90° opening, on the other hand, is an intermediate solution that can solve design problems while maintaining a uniform design.

The thickness of the wood and glass door are 35 mm.

SISTEMA 7 can be applied to all Gliss Master structures with wood, glass or frame sides, but cannot be used with other Gliss Master doors.

The 90° and 180° folding door is applied to modules with width 790 and 954, while the hinged door is applied to single modules 380/462/626, double modules 790/954/1282 and the corner unit.

The 380 mm unit is specific for SISTEMA 7 with hinged door.

### Reductions

90° and 180° folding openings can be reduced in height only.

180° hinged openings can be reduced in height and in width up to 405 mm.

### Notes

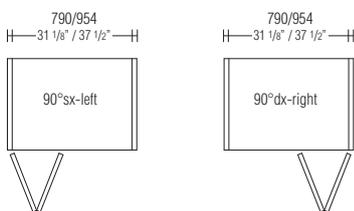

The side panels follow the same logic as Gliss Master (see drawing ●).

# Molteni&C

7—  
57

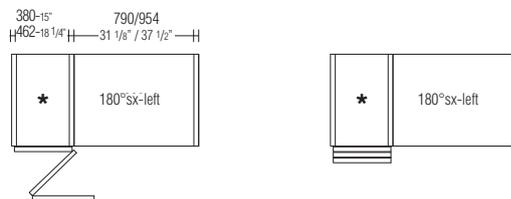

★ = 180° Hinged (necessary for 180° opening and for wardrobes with width made to order)

### 90° Folding opening

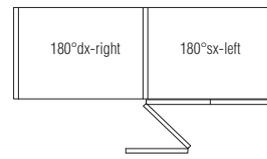

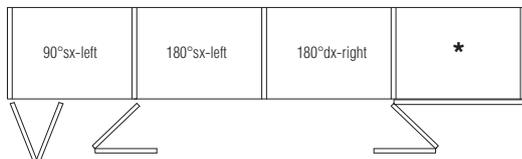

If the 90° folding door is on an end unit with external door, provide filler:  
50 mm (790 compartment)  
120 mm (954 compartment)

## CORNER ELEMENT

### Corner element D 595 - open or with GLASS/SWING/SISTEMA 7 doors

The corner element is supplied complete with base, top and backs (melamine faced structure, piqué or fine grain). Between the corner element and the adjacent modules, the central partitions in melamine, frame or glass must be inserted.  
 The corner element can also receive a side panel to close the composition.  
 Compartments adjacent to the closed corner element can be open or closed with GLASS, SWING or SISTEMA 7 (folding and hinged) doors.

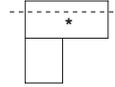

#### Notes

The shelf is not included in the price of the corner element.  
 Shelves and lids can be fitted with LED lighting bars, as indicated in the drawing below.

#### Reductions

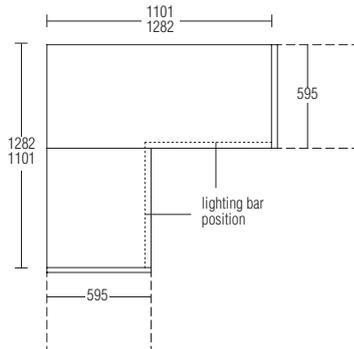

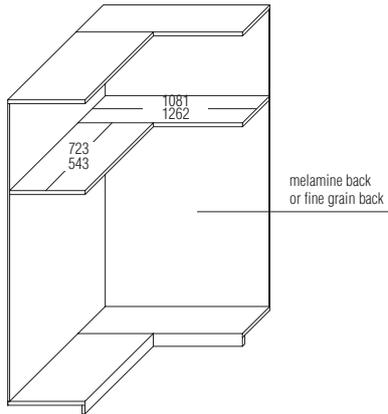

The corner element can be reduced in height, width and depth.  
 In width, the reduction can be carried out either on one side only or on both sides, up to a minimum width of 1101 mm.

Reduction in depth can be done on one or on two sides, up to a minimum of 435 mm.  
 If only one side is reduced, that will be the side with the longest shelves (\*).

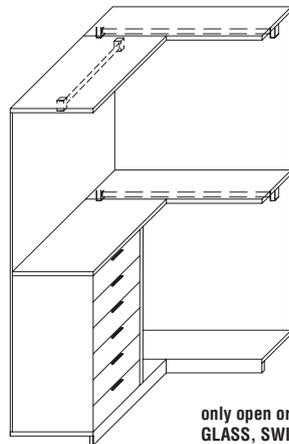

Molteni & C

8—  
 57

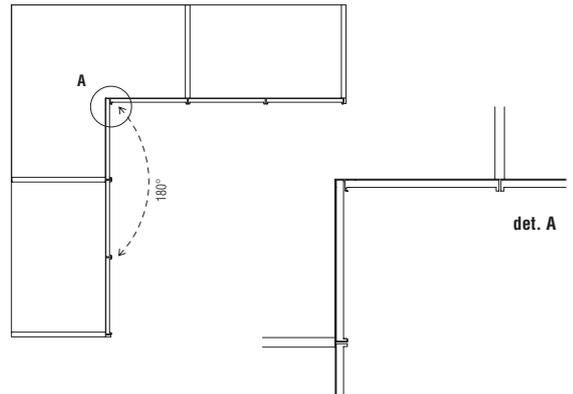

The corner element can be fitted with shelves and clothes rails, or with this solution of drawer units that have a central partition H 1158 where the desired drawer unit can be inserted. The drawer unit can be with fronts W 420 or 584.

## STRUCTURE

### Structure for walk-in closet

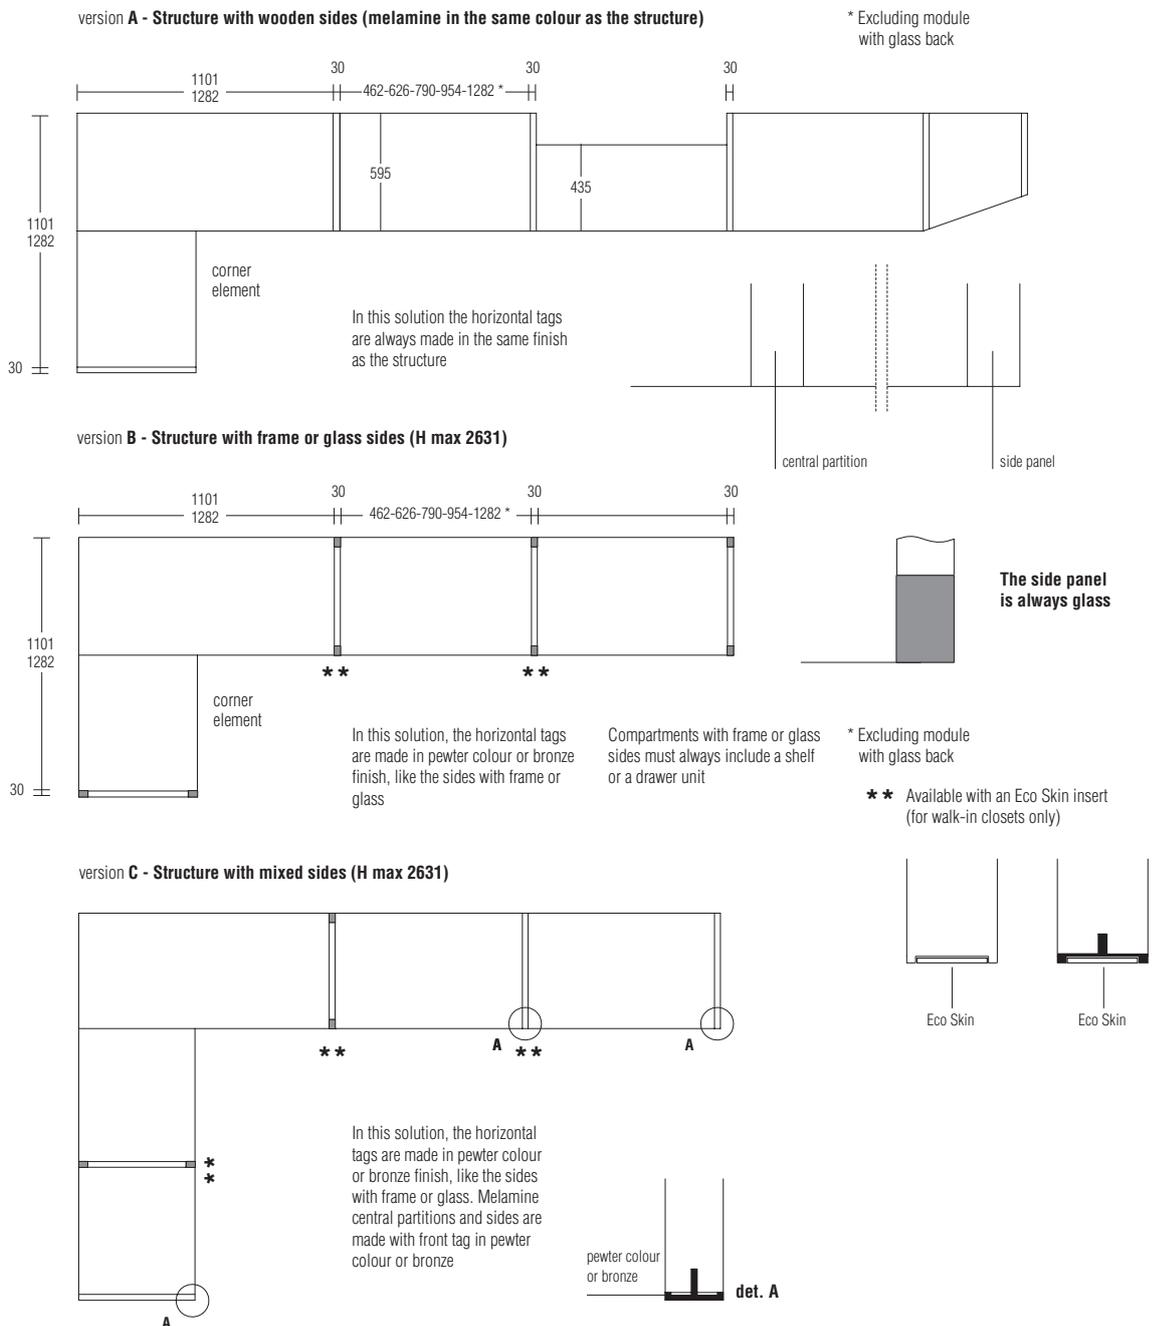

In version **A**, the structure (base, lid, central partitions, back and side panels) is in melamine, in the same finish as the structure.  
The back piece can also be provided in fine grain finish or in glass.  
The side panels are always provided without extension profile (see detail).  
In version **B**, the central partitions and sides are made with an aluminium frame with pewter colour or bronze finish, with or without glass.  
Base, lid and back piece are in melamine, in the same finish as the structure.  
The back piece can also be provided in fine grain or glass finish.  
Horizontal tags on the base and lid are made in a pewter colour or bronze finish like the side frames.  
In version **C**, given the presence of frame sides in pewter colour finish, the central and side partitions in melamine are also made with front tags in pewter colour or bronze.

#### \*\* Notes

The central melamine sides with front profile, frame and glass are available with an Eco Skin insert, only for use in walk-in closets.

Molteni & C

DESIGN

IX.2021

## STRUCTURE

### Linear modules

Linear modules are made up of a base and lid always made in melamine in the same finish as the structure.

The back is available in the three versions indicated below.

**A1** and **A2** can be reduced in height, width and depth if closed by sides and doors that are compatible with the requested reductions.

**A3** can be reduced only in height.

### Central partitions

These are available in melamine, in the same finishes as the structure, frame and glass.

The melamine version can be reduced in height and depth.

The frame and glass versions can be reduced only in height.

Compartments with frame or glass sides must always include a shelf or a drawer unit.

A version with an Eco Skin insert is available for use in walk-in closets.

### Side panels

These are available in melamine, in the same finishes as the structure, frame and glass.

The melamine version can be reduced in height and depth.

The side exterior is available also in matt lacquer, glossy lacquer or wood finish (vertical grain).

The standard finish on side panels is an extension profile in the coloured matt lacquer, pewter colour, bronze (to be specified in the Order). The extension profiles for glossy lacquer or wood side panels always match the side panels of the same finish.

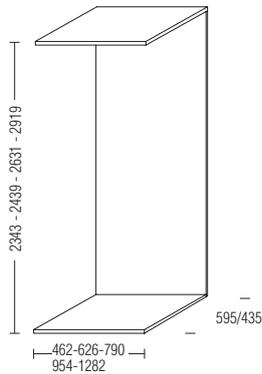

The frame and glass versions can be reduced only in height.

Compartments with frame or glass sides must always include a shelf or a drawer unit.

Molteni & C

10  
57

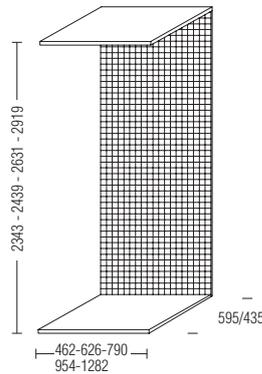

### A1 - Melamine back

#### A1

Base, lid and back made in melamine finish matching the structure. The back is available also in piqué

### A2 - Fine grain back

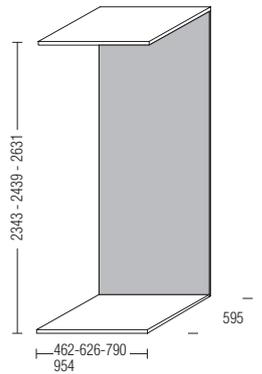

#### A2

Base and lid made in melamine finish matching the structure. Back with fine grain finish

### A3 - Glass back

(only hinged GLASS, WINDOW closet and SISTEMA 7 glass)

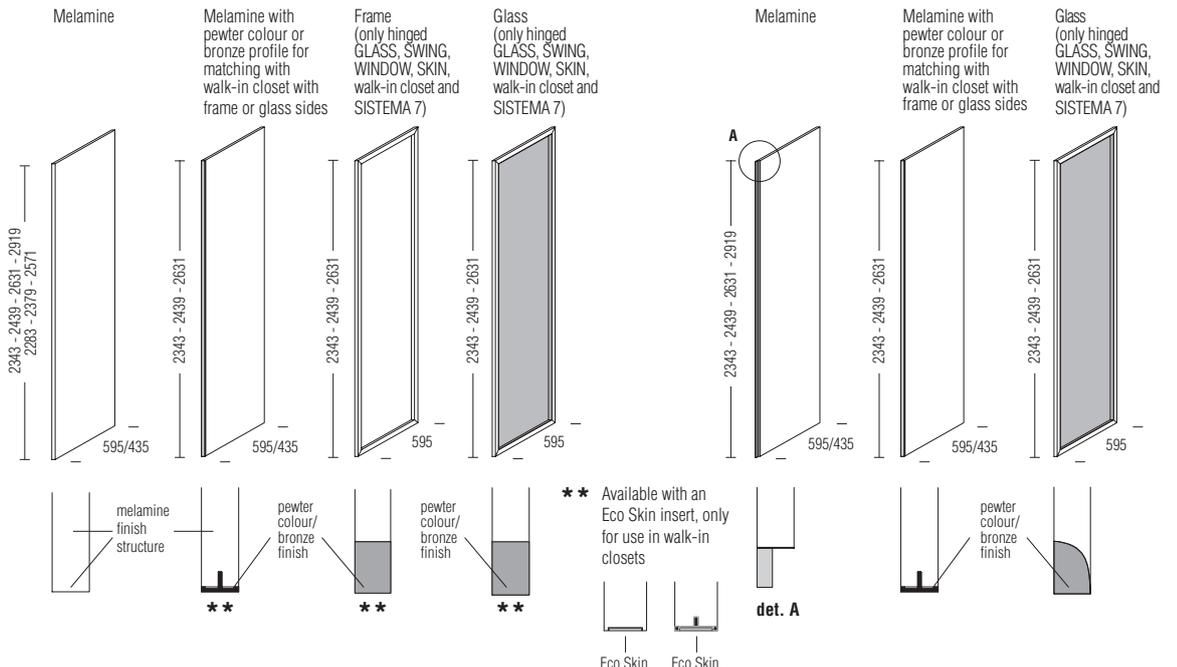

#### A3

Base and lid made in melamine finish matching the structure. It is possible to produce single finished modules W 790/954 with lateral pieces in glass by using the glass lids

### Central partitions, th 30

#### Warning:

frame sides and glass sides will only have holes at the position of the shelves. Complete hole series at regular intervals 96 mm will involve an extra charge of per side.

## TWO-SIDED CORNER WARDROBE COMPOSITIONS WITH OUTWARD SWING DOORS

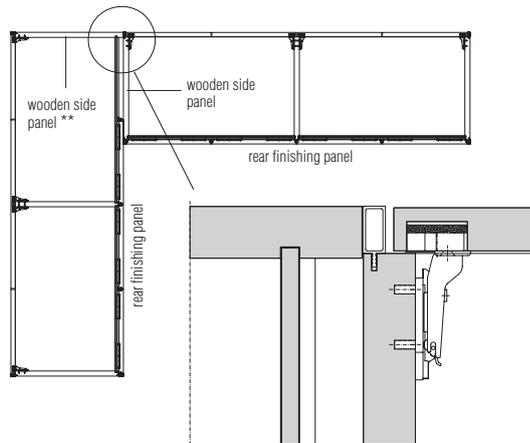

Many of the solutions described below can be created with Gliss Master.  
These layouts can be installed either with or without the external corner module.

\*\* For this side, please consider the wooden side panel surcharge.

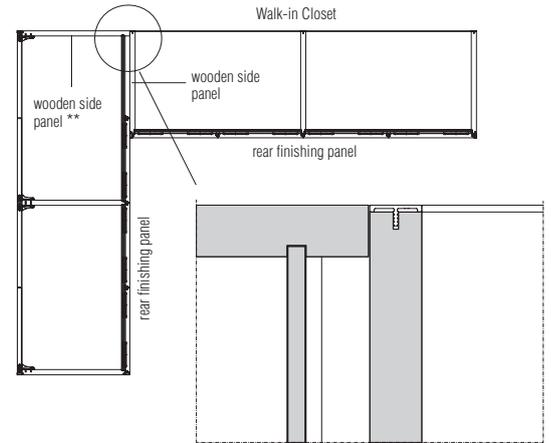

Molteni & C

11—  
57

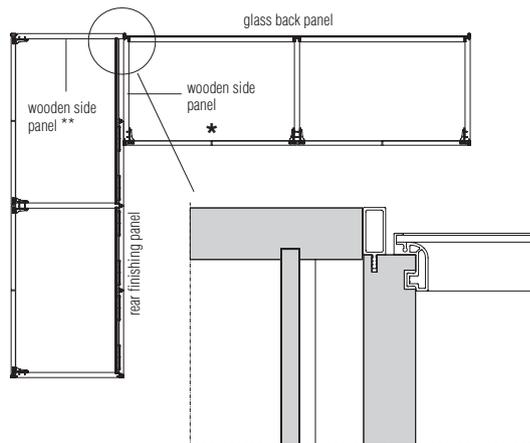

**Solution A:**  
Outward swing doors  
(NO glass back panels)

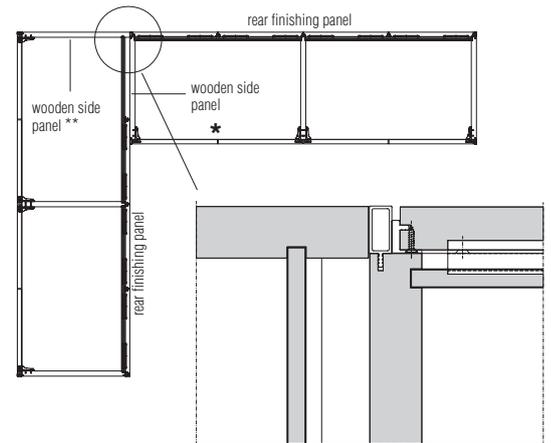

**Solution B:**  
Outward swing door + Walk-in Closet  
(NO glass back panels)

**Solution C:**  
Outward swing door + Inward swing door  
(example with glass back panels)

**Solution D:**  
Outward swing door + Inward swing door  
(example with rear finishing panel)

\* This compartment can be closed with a QUICK, "A FILO" and NICHE door (vertical and horizontal).  
For glass backs, drawer units are mandatory for compartments with frame or glass sides.  
For melamine structure, piqué or fine grain backs, use drawer units that are narrower than the module.

## EXTERNAL CORNER UNIT

### External corner unit

- It can be either open or fitted with doors.
- It is always secured to the melamine central partitions of the adjacent wardrobes.
- The front profile can have a matt lacquered, pewter colour and bronze finish.
- Height, width and depth can be reduced.
- The external corner unit can be closed in all hinged door models.

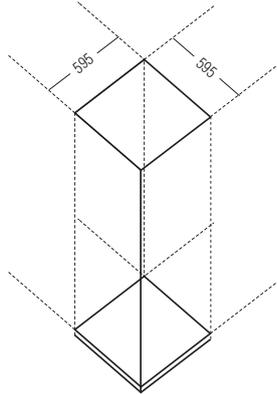

### Reductions

The external corner unit can be reduced in height, width and depth.

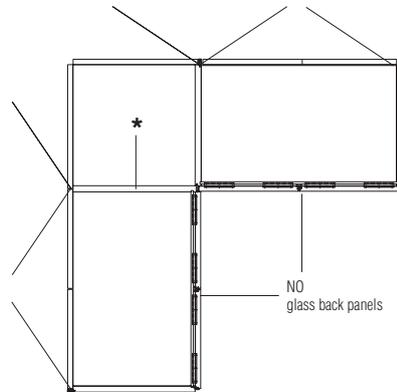

\* For this side, please consider the wooden central partition surcharge.

Molteni & C

## SPECIAL PROCESSING - SHAPING

### Only on hinged door compartment

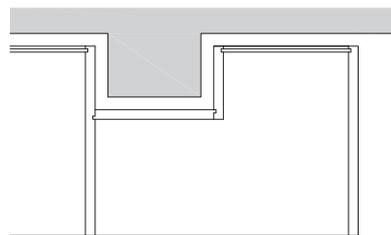

- Costs to consider:
- Back cut
  - Lid cut
  - Fixed shelf with surcharge for cut (see page 114 of the price list for solid wood shelves)
  - Back, fixed price

Molteni & C

- Costs to consider:
- Back cut
  - Base/lid/shelf in solid wood
  - 2 cuts per shaped piece
  - 2 additional panels
  - Possible cut in side

16—  
 57

### Notes

- Shaping in both height and width cannot be done on the same compartment.
- Confirmation to the customer of the feasibility of shaping will only be given after checking with the Molteni&C Technical Office.

## CUSTOM CUTS FOR ATTICS

### Doors with slanting cut (only for wardrobes with solid wood sides)

When preparing the order, indicate heights H1 and H2, as well as the width L, as shown in the example.

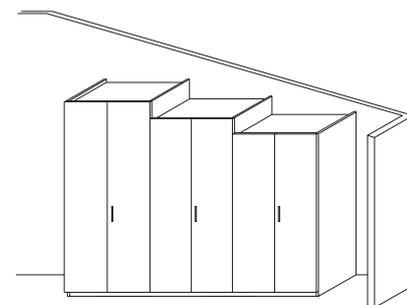

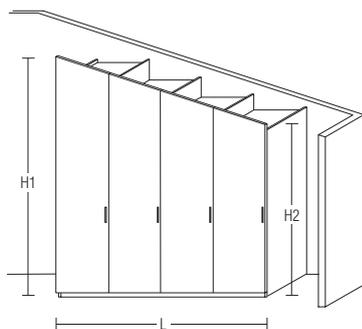

The price for the slanting cut for each door is the same as cutting for a hinged door, as shown in the doors pages.

In this case a single module must be used with a QUICK, START, TWIN, "A FILO", HOLLOW and GRIP hinged door, with the melamine facade and matt lacquered finishes, hinged on the higher side.

The structures can be standard or made to size.

### Standard or made to size doors (only for wardrobes with solid wood sides)

Double compartments with hinged doors can be used for this solution.

## SISTEMA 7 doors th 35

With SISTEMA 7 it is possible to create passageway solutions with doors fastened to Gliss Master wardrobe structures.  
This type of solution requires the insertion of a lid between the sides of the wardrobes.  
It can be opened thanks to a 180° folding door in wood or glass.

**Notes**  
Doors are not available with H 2889.

## SPECIAL ELEMENTS

### Column with open compartment

- Can be inserted only in wardrobes without doors or with hinged doors.
- Central partitions and/or lateral pieces close the column and cannot be frame or glass.
- The open compartment is always in matt lacquered colours.
- Doors are always without handles because they protrude with respect to the structure.
- Drawers are fitted with the "E" handle of the START door.
- Front finish: melamine front, matt lacquered colours, glossy lacquered colours and wood.

\* **The price does not include the central partitions or side panels, nor the internal shelves.**

Reductions are allowed only in height, and costs of cutting the structure and doors are applied. Open compartment and lower part cannot be reduced.

Wire passage **EPA1 Ø 60** chrome on request on back.

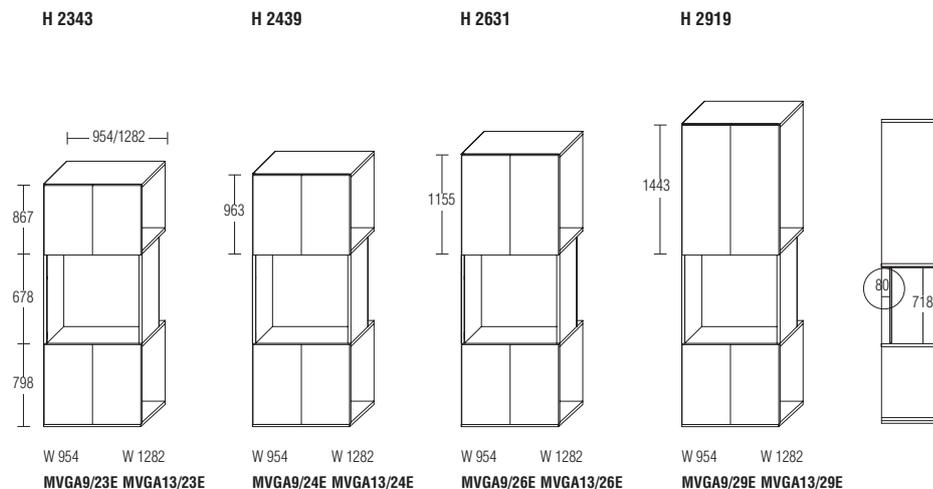

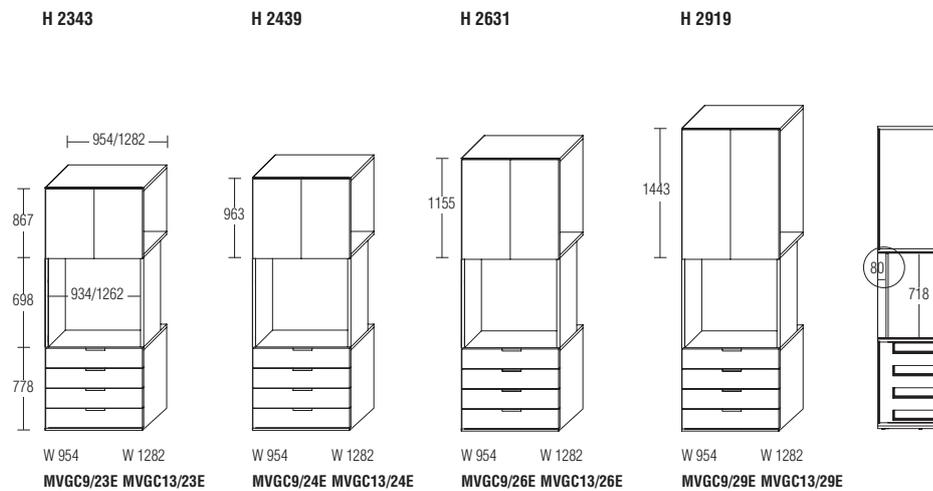

### Notes

The back of the open compartment cannot hold a mounted TV.

## FILLERS AND OPENING SIDE TRIMS

### Horizontal filler

The filler is supplied in two parts, one part to be fixed to the ceiling to which the other will be hooked on (see diagram below).

The distance of the filler from the door is the client's decision.

In the cartapaglia finish, the grain direction is always vertical.

In the wood and graffiato finish, the grain direction is always horizontal.

### Vertical filler

The vertical filler can be placed flush with the structure or the door.

This detail must be specified in the order to prepare the side panel (see example).

If this detail is not specified when placing the order, the filler will automatically be placed flush with the structure and the side panel will have the extension profile.

### Opening fillers

Can be made with START and "A FILO" door. For handles, consider surcharge.

Always have the 155° hinges.

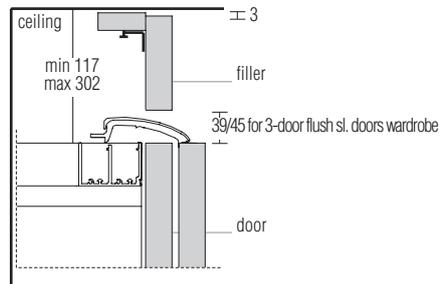

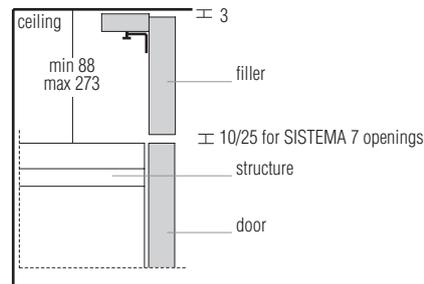

Are the same height as the other doors in the composition.

Have a closing strip on their lower part.

In the wood finish, the grain direction is always vertical.

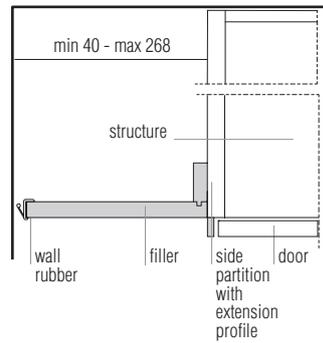

38—

## LIGHTING SYSTEM

### Lighting bars with front LEDs

Internal compartments of Gliss Master wardrobes can be equipped with front LED lighting. The lighting bar can be applied to lids or to wooden, transparent glass and Eco Skin shelves, wood and glass shoe rack shelves. Using the electrified wire strip installed on the side (wood, frame or glass), the shelf can be moved. For each compartment length, we have made specific lighting bars with wiring compliant with European safety standards.

A wire strip is not needed if the compartment only has lighting on the top piece.

**Lighting bars can be reduced with a surcharge for the shelf cutting.**

### Lighting shelves

It is possible to insert one or more lighting shelves in Gliss Master compartments. Using the electrified wire strip mounted on the side panel, the lighting shelf can be moved.

**Lighting shelves can be connected to the wire strip on the left side panel or can be mounted without wire strip.**

### Notes

When placing the order, the customer must indicate how many shelves with lighting bars or lighting shelves are required. Lighting bars or lighting shelves can be placed in the same compartment. **For assembly: a lighting system on wardrobe with hinged doors requires a minimum extra height of 5 cm (2").**

**Individual wire strip is always installed on the left side panel of the compartment, with the exception of corner units for walk-in wardrobes and of the compartment next to the corner unit.**

**When ordering, indicate compartments with wire strip.**

**The electrified wire strip is mandatory for wardrobes with wooden sides and glass back.**

## INTERNAL ACCESSORIES

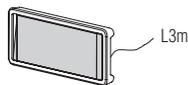

Aircub is an air purifier and aroma diffuser that eliminates up to 95% of the harmful agents inside wardrobes through a process of ionisation and ozonation. Aircub can be managed easily from your smartphone with a dedicated app. Aircub can be installed on the back panel of each compartment. Just plug it into the electrical socket and turn it on. Every Aircub has a single plug.

Up to 3 Aircubs per wardrobe can be installed using the specific multi-socket connector.

Information about Aircub is available on the website <https://www.check-up.it> in the projects section.

### Aircub - air purifier

W 270 D 28 H 120  
W 10 5/8" D 1 1/8" H 4 3/4"  
(cable length L3m)

EAC1

### product advantages

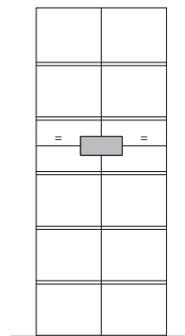

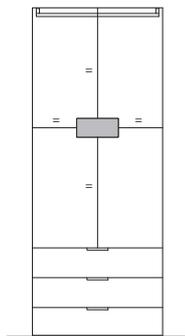

- improves air quality
  - reduces bacteria that cause foul odours
  - prevents mould and mites from forming
  - dispenses fragrance
  - does not have filters that require maintenance or changes
  - includes n.1 fragrance pod
- Scented wafers can be ordered online:  
<https://shop.check-up.it/>

### multi-socket connector

## GLASS LID FOR CHEST OF DRAWERS

### To be used only in compartments with wooden sides

Modular chests of drawers can be made with a transparent glass lid in the module widths 790/954/1282.

It is mandatory that the first drawer be H 190 in wood (special measure).

Drawer dividers cannot be inserted in the first drawer.

The top can be fitted with a LED lighting bar, but it cannot be connected to the cable holder.

The connection to the power cord has to pass behind the back panel.

Eco Skin bottoms in grey can be inserted.
