

EDGE Desk

Designer: Daniel Libeskind
Year: 2019

DESCRIPTION

The desk of the Edge collection is made up of several irregular and asymmetrical solids. Its blocks, made of glossy lacquered Eucalyptus wood and black crystal tops, are connected to each other by a metal structure that acts as a skeleton. Its design generates an alternation of full and empty spaces that gives the room a strong feeling of modernity. The Edge desk has two retractable drawers and is available in two sizes.

The company reserves the right to make changes to the models without notice. The information given here is based on the latest data published on the price list.

EDGE Desk

Designer: Daniel Libeskind
