## UOVO COLLECTION

**DESIGNER:** Rony Plesl

**YEAR OF DESIGN:** 2011

Like something from a fairytale, Uovos – eggs – sparkle like a radiant and mystical gem in a faraway land. These reflective art glass lighting sculptures shine like a mountain of precious rounded mirrors, capturing nearby objects and multiplying them to infinity. Uovos exudes matchless charm and creativity due to the fact that it's been designed in two pieces with exceptional technique. One of the sculptures, Uovo d'argento, comprises silver eggs, handcrafted by silvering clear blown-glass components from the inside. The matching piece, Uovo d'oro, features golden eggs, with the colouring achieved by silvering the insides of amber glass components. At the large version the finished designs are nearly two meters high, 1.2 metres wide, and 130 kilograms in weight. There is also smaller version of the Uovo designs available
