MEMENTO MORI COLLECTION

DESIGNER: Maxim Velčovský

YEAR OF DESIGN: 2016

MATERIAL: Artistic hand blown Glass

The Latin phrase Memento Mori, reminding us to 'remember death,' became the essence of this object. It symbolizes birth and death as well as the disappearing crafts that are passed from generation to generation in Europe. Small parts are made by glass pressing, large parts are hand-blown and the chains created by small "bones" paraphrase the "immortal" classical chandeliers.
