

Table with aluminium base, tops and accessories in stoneware or glass.

Base: gloss varnished legs and joints in cast aluminium, gloss varnished central plank under the top in extruded aluminium (reference colours: Mano Lucida wood sample collection). Adjustable aluminium feet.

Top:

- composed of elements in Glaze available in two dimensions, 50x80 cm. and 50x100 cm.;
- composed of elements in Cristal;
- whole in Cristal.

Accessories: gloss varnished aluminium structure (reference colours: Mano Lucida wood sample collection), tops in Glaze or Cristal.

Notes:

The composition of the aluminium base allows for the assembly of tables with a length of 4m without the necessity of further central legs.

The base is available with a standard height (table 73 cm. high) or higher (table 106 cm. high).

The high versions of the Altopiano table have been conceived to be used with bar stools.

The two head elements of the table made of Glaze always have the size of 50x100 cm.

The accessories are available in two heights (19 cm. and 24 cm.) and slide along the central plank that connect the table bases as to be fixed in the desired position. The tops code B172F and B172G are swiveling.

The Glaze tops are obtained by manually glazing molded porcelain stoneware elements. The possible slight differences in colour and appearance between one surface and another are unpredictable and are the value and the distinctive feature of a completely hand-crafted workmanship.

The Cristal tops are made by interposing a layer of fabric between two sheets of transparent extralight tempered glass. This whole is made integral by a film of thermosetting material, which allows to generate strong three-dimensional connections and which guarantees the stability of the stratification over time. Once the stratification is obtained, the thickness of the top is sealed in order to allow it to be used outdoors.

The product can be used also in interior environments.

We advise to use a Winter Set protection cover.

Awards: the Altopiano table has been awarded the GERMAN DESIGN AWARD "GOLD" 2024 in the Excellent Product Design-Gardening and Outdoor Living category and the STYLEPARK SELECTED AWARD 2022 as one of the best new products of the year.
