

Boutique Mast

design Piero Lissoni

IT/ Passpartout tra la zona notte e il living, Boutique Mast è il sistema Porro dalla leggerezza nautica e dalla linearità grafica, che consente massima libertà espressiva per composizioni pavimento-soffitto o a parete.

Boutique Mast è caratterizzato da montanti metallici a sezione circolare su cui è possibile applicare grandi mensole a sbalzo ad "ala di aliante": una nuova concezione di cabina armadio o contenitore per la zona giorno con cui creare composizioni aeree di grande impatto visivo, soluzioni su misura completamente personalizzabili. E' infatti possibile inserire a piacere libere composizioni di contenitori a giorno o moduli attrezzati, preziosamente rifiniti con taglio a 45°, scegliendo le proprie finiture tra laccato ed essenza.

EN/The link between the bedroom and the living area, Boutique Mast, the Porro system, featuring a nautical lightness but a graphical linearity as well, providing for the best and highest expression freedom for floor-ceiling or wall composition. Boutique Mast exhibits circular metal uprights where to fit cantilevered glider-wing shelves: a new design for the walk-in closet or a unit for the living area, creating aerial strongly visual and customised tailored-made solutions. It is in fact possible to freely fit hanging open or equipped modules, precisely refined with a 45° corner jointing, selecting the finish among the Porro colours and wood.
