Pool Table

## Description

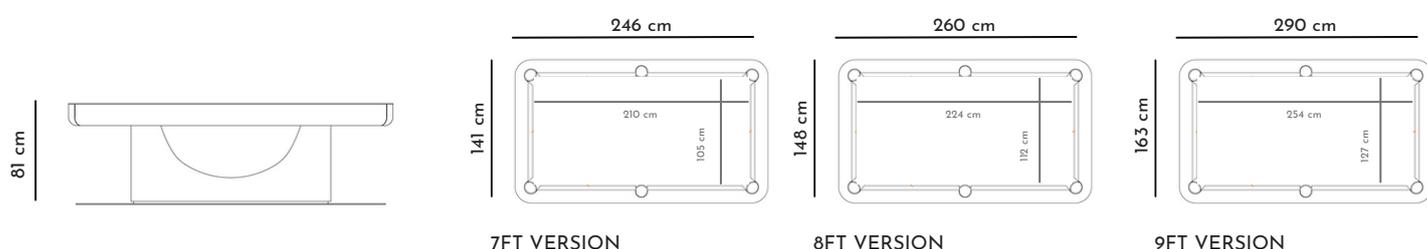

Mono is a modern professional pool table.

Mono pool table is designed in collaboration with Bellavista & Piccini design studio.

The beauty of this pool table is the central base with a sinuous but massive design.

The structure is available in different finishes: glossy, matt, soft touch, concrete effect lacquering.

Another new possibility is to have Mono pool table completely covered with a carbon fiber/aluminum fiber transfer, giving a very hi-tech look to the billiard. The top rails can be lacquered or in ceramic stone effect.

## Finishes:

Lacquers  
18 colours available
