YGRITTE

Swivel Armchair

Description

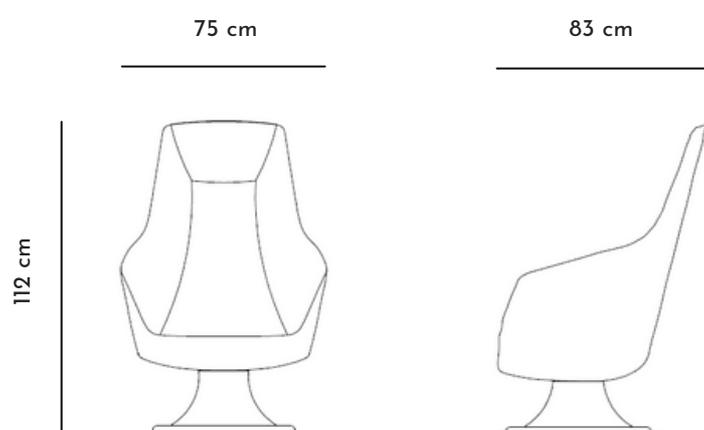

Ygritte is a swivel armchair.

What distinguishes this armchair is the high back and the sinuous design.

The low seat makes Ygritte the perfect armchair for relaxing.

Its beauty can be found in the materials combination: the external part of the seating is covered with leather, the inner part in suede Eco Nabuk.

The cone is covered with leather too. The round base is laquered with a steel profile.
