

Flat iron bands are bent and assembled to create a scalloped, or fish scale, pattern for the base of this round side table. Then we finish it in gold leaf and put a rough hewn black marble top on it.

Information

Attribute Additional Info 3: As a natural material, color variation is to be expected. The color has been determined randomly depending on what mineral content makes up each batch when the marble is formed. This is what makes marble such a unique material to work with.
